Professional Profile:

I'm a fresh graduate from ELTE Faculty of Informatics with an interest in Neural Networks and AI, Big Data and any type of statistics. I'm motivated to learn as much as possible and to make use of my knowledge where it's needed.

Experience:

- Tutored for Highschool students in python and the office package
- Tutored for University students in python and object oriented programming
- Worked in the IT department of Freeway Entertainment developing website and working on big data as an Intern
- Worked at Mediadyn as a webdeveloper Intern
- Worked on multiple single projects for friends, family, school and myself

Education:

Graduated from ELTE Faculty of Informatics in 2026

Key Skills:

- Neural Network development, AI integration
- Big Data Management, Database Management
 - Efficient data streams and processing in python and java
 - Neural Network in python
 - Sufficient in SQL
- Backend webdevelopment in laravel
- Object oriented programming languages

Personal Profile:

I'm interested in local and foreign politics, national and international economy and I try to learn as much about them as possible. Other than that I sail and play chess on an amateur level.
